DETAILED ACTION

1. This office action is in response to the amendment filed on 10/25/04.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. **Claims 3-4, 23, 24** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. **Claim 3** recites the limitation "said transmitter filter stage" in lines 1-2. There is insufficient antecedent basis for this limitation in the claim.

Similar problems exist in claims 4, 23, 24.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. **Claims 11, 16** are rejected under 35 U.S.C. 102(b) as being anticipated by Sayar (US Re 34,206).

Regarding claim 11, Sayar discloses the followings:

"a receive time error measurement system configured to generate a receive time error signal as a function of a receive clock signal experiencing jitter and a feedback signal" (Figure 2, element 202; Figure 3 element 202);

"a jitter processing circuit configured to develop a dejittered control signal as a function of said time error signal" (Figure 2, element 204);

"a clock generator system configured to provide said feedback signal as a function of said dejittered control signal and a transceiver local signal" (Figure 2, element 210).

Regarding claim 16, see claim 11 since claim 16 is a method claim of apparatus claim 11.

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. **Claims 12-15, 17-20** rejected under 35 U.S.C. 103(a) as being unpatentable over Sayar.

Regarding claim 12-15, 17-20, the claimed subject matter in these claims are rather design particular, therefore, would have been optional to one skilled in the art.

Allowable Subject Matter

9. **Claims 1-10, 21-29** are allowed.

Response to Arguments

10. Applicant's arguments filed 10/25/04 have been fully considered but they are not persuasive.

In claim 1, there recite "transmitter stage" and "transmitter filter". However, in claim 3, there recites "said transmitter filter stage". It is NOT clear which recitation claim 3 is referring to.

The office action dated 07/21/04 cited Sayar to teach the claimed subject matter in claims 11 and 16 under 35 U.S.C. 102(b) (see the office action). Claims 12-15, 17-20 were rejected under 35 U.S.C. 103 over Sayar. As indicated in the office action dated 07/21/04, these claimed subject matter would have been design particular. That is, based on Sayar, depending on each individual scenario and its resources, a particular design would have been utilized to provide optimal results.

Conclusion

11. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of
